

## ABONO BIOTECH INDUSTRIES PRIVATE LIMITED

Abono Biotech Industries Private Limited grow with the principle of enhancing the natural farming methods and to maintain the quality of soil and crops. The cause and effect of chemical fertilisers are so serious, and that is when we came to the market to enrich the modern farming methods with Biofertilizers such as Vermi Zakan, Coco peat powder, Potting Soil Mixture and Bovine manure. Vegetables Seeds, UV poly Grow bags and Kitchen Gardening stands.

We also supply Coir farming products and roof farming products to support all the farming needs. We are engaged in manufacture, supply, wholesale and export of a quality assured range of our products.

Our products are 100% non-chemical which will greatly support the immune system of the crops and soil, thereby resulting in increased yield. Our organic products are assured with the standards of the Fertiliser Control Board, which are rich nutrient suppliers to a variety of crops for agriculture, plantation, nurseries, veggies and fruits and even in horticulture.

Are you in need of quality assured natural fertilisers? Contact us anytime! We are happily awaiting to deliver the products within the specified time frame.
